21 June 2003

MEMORANDUM FOR Commander, 400<sup>th</sup> Military Police Battalion

SUBJECT: Escape and shooting at Abu Gharaib

- 1. This 15-6 investigation includes two parts. An escape that took place around 1400 and a riot that resulted in a shooting and death of one detainee and injuries to seven other detainees around 1600.
- 2. The Escape: The detainee, #8968, used a piece of cardboard from a water bottle box to push the triple strain concertina wire up and slide under. The detainee did this while the tower guard was turned the other way. The QRF was activated and quickly apprehended the detainee while other guards pursued. Reference enclosure 21.
  - a. This location was previously used by detainees to escape seven days earlier. This is an ideal spot to use because of the concealment along the wall. This spot was reinforced after the first escape attempt. A step to prevent an attempted escape attempt like this would be a cellblock enclosure. The cellblock is currently being renovated. Prisoners use cardboard boxes to sleep on. This is good for preventive medicine.
  - b. The SOP does not specifically cover an escape attempt. This is a general guard order to prevent detainees from escaping
- 3. The Riot: Around 1600, 30-40 detainees started to throw rocks from their compounds at the three interior guards. The interior guards tried to get behind a generator to avoid the rock throws. They then proceeded to the exit. Enroute to the exit the interior guards were hit with baseball size rocks. A prisoner was about to throw a tent pole like a javelin at the interior guards only 10-15 feet away, when all three guard towers fired at the main threat 8 times and one tower shot 3 times into the crowd. This effectively dispersed the crowd and eliminated the threat. Reference enclosure 20 and 22 for the prison overlay and tower shooting layout.
  - a. Upon reading the sworn statements (enclosure 7-19), I determined that the shooting was justified. All three towers determined that the lives of the interior guards were threatened. This fact under the current rules of engagement gives authorization for the soldier to respond with a lethal force. Prior to lethal response the towers even tried to verbally control the crowd ineffectively. The rules of engagement are reinforced in the company SOP and stationed at the guard towers. They were followed.
  - b. The company having placed a variety of weapons (M16 or shotgun) gives the guards the choice to avoid unnecessary ricochet or firepower thru a target. This choice let the guard in tower #6 control the crowd effectively with fewer deaths but more injuries.
  - c. The QRF responded immediately after the shots. They helped secure the injured detainees for treatment and secure the compounds.

SUBJECT: Escape and shooting at Abu Gharaib, Cont

#### 21 June 2003

- 4. Recommendations.
  - a. Extra concertina wire passed the far tower
  - b. Post a daytime roving patrol
  - c. Less lethal weapon capability with proper training

л.

- d. Proper life support for prisoners (hygiene support and supplies, variety of food, linguist support, MI support)
- e. Slug shotgun rounds
- f. Remove all rocks in compound areas
- g. Refresh on rules of engagement
- h. Post compound rules in Arabic and English
- i. Contracted translators
- 5. The POC is the undersigned at robert.wyks@us.army.mil.

#### MEMORANDUM FOR COMMANDER, 400th Military Police Battalion

SUBJECT: Use of Deadly Force, Abu Guhrayb Detainment Facility

- 1. On, 12 June 2004, at approximately 1800 hours, the detainees became agitated and began demanding answers regarding their capture and the amount of time they would be held in custody. They were upset and declared that they were being housed improperly and lacked basic needs such as showers, shampoo, blankets and toilets. Several of the detainees threw rocks and tent poles out of the enclosure at the guards and one guard was struck on the hand. At that time, the Company First Sergeant, Daryl Keithley, and myself responded to the yard and addressed the detainees through one of the prisoner interpreters. They were advised that many of the new detainees had release dates and that the Camp Commander would review other cases and provide us information when it was available. The detainees were all advised that throwing rocks and tent poles at the guards would constitute deadly force and that they could and would be shot if that behavior occurred again. The situation was deescalated, however, due to a lack of additional compounds, the individuals suspected of throwing rocks and tent poles were not pulled out and segregated. A sitrep was sent to battalion with a request to charge the individuals and have them sent to Camp Cropper.
- 2. On 13 June 2003, at approximately 1400 hours, a disturbance was again reported in the yard and involved an attempted escape by detainee #8968. The detainee attempted to go through the wire utilizing a cardboard box, however, was immediately apprehended as he exited the wire. At this time a count was initiated, however, detainees in both compounds refused to stand to be counted. The QRF was dispatched, and ultimately the count proceeded without incident. Shortly after the count the QRF was being called again and as they responded multiple gunshots were heard in the yard.
- 3. Upon responding into the yard it was discovered that multiple detainees with multiple rocks and tent poles had targeted the military police working the enclosure compounds and were throwing the rocks and tent poles at them. As they attempted to flee military police in the tower feared for the lives of the enclosure guards. Simultaneously, three military police from three different guard towers, followed the rules of engagement and fired upon identified detainees who were engaging in the use of deadly force against U.S. personnel. Two military police shot with 12 gauge shotguns and one fired approximately 4 5.56mm rounds from his M-16. At the end of the engagement 7 Iraqi detainees were wounded, one was killed and one U.S. soldier from the 400<sup>th</sup> Military Police Battalion was injured from being hit by a rock.
- 4. All wounded were taken from the enclosure area and provided first aid by medics from the 400<sup>th</sup> MP Battalion as well as combat lifesavers from the 72<sup>nd</sup> Military Police Company. Medivac was requested and the 7 wounded detainees were evacuated. The body and personnel affects of the KIA were release to Iraqi authorities.

#### MEMORANDUM FOR RECORD

SUBJECT: AR 15-6 Investigation - Riot and Subsequent Shootings of 13 June 2003

The findings and recommendations in the enclosed DA 1574, report of investigation pursuant to AR 15-6 are hereby approved. Lethal force was used in response to a credible threat of serious bodily injury or death against United States soldiers, by a detainee. The soldier involved acted in accordance with the Rules of Engagement and did not use excessive force.

Encl as MEMORANDUM THRU Staff Judge Advocate, 800<sup>th</sup> Military Police Brigade, ATTN: LTC James O'Hare

٠.

MEMORANDUM FOR Commander, 400<sup>th</sup> Military Police Battalion, LTC Dale Burtyk.

Subject: Legal Review of AR 15-6 Investigation- Riot and Subsequent Shootings of 13 June 2003.

- 1. On June 13th, 2003, LTC Dale Burtyk, Commander, 400<sup>th</sup> Military Police Battalion, appointed CPT Robert Wyck to conduct an informal investigation into the attempted escape, the riot and subsequent shootings of eight (8) civilian internees (including one lethally) at Camp Vigilant on 13 June 2003.
- 2. The DA 1574 and supporting documentation including evidence gathered was timely submitted on 21 June, 2003 by the IO.
- 3. Under AR 15-6, paragraph 2-3b, I reviewed the investigation and make the following determinations:
  - a. The investigation complies with legal requirements for an AR 15-6 investigation.
  - b. There are no procedural errors or irregularities that invalidate the investigation.
  - c. Sufficient evidence supports the investigating officer's findings.
  - d. The investigating officer's recommendations are consistent with his findings. Lethal force was used in response to a credible threat of death or serious bodily injury against U.S. soldiers by detainees who had removed tent poles from their compound and were attacking military police officers at the compound. There are a number of specific recommendations that CPT Wyck made. Counsel recommends that LTC Burtyk review the recommendations made and incorporate any of the provisions that are feasible to address these concerns.
  - e. The investigating officer's recommendation to "post compound rules in Arabic and English" is a requirement which must be addressed immediately if not already remedied.

4. The POC for this memorandum is the undersigned at 550-1450.

## Mission Statement

TASK: The 72<sup>nd</sup> Military Police Company and 400<sup>th</sup> Military Police Battalion conducts Civilian Detainment Operations VIC GRID 38S MB12948405 NLT 26May 2003.

PURPOSE: To assist in the stabilization process of the new Iraqi government by providing a temporary, but secure holding area for Iraqi civilians accused of committing crimes. Furthermore, to assist in the transition of civilian detainment operations from U.S. to Iraqi forces.

END STATE: A secure, stable, and civilized environment for pre and post trial detainment of Iraqi citizens, operated by trained Iraqi detention personnel.

۰.

Note: This SOP is your SOP. It is a minimum! It is up to you as leaders to go above and beyond this SOP if it involves the protection of your soldiers or the accomplishment of the mission. The Bottem Line, "it's not my/our job" doesn't get things done.

#### Military Police/Corrections Officer Operations:

Military Police (95B series) and/or Corrections Officer (95C) are the primary soldiers used in the daily prison operations. In this SOP Military Police and Corrections Officer may be used interchangeably in missions conducted inside the compound. MPs will use primary and cover officer techniques (2 man technique) at all times when in the compound.

There are three primary areas of responsibility for MPs. Yard operations, Tower operations and Special Details. It should be noted that even though three job areas have been identified they should not be the MP's only areas of operations. Secondary areas include escort operations of prisoners to and from other military/civilian holding areas and escorting local civilian contractors contracted with repairing and/or up-keeping duties in the prison.

Shifts will be run in twelve (12 and / or 8) hour rotations. MP manning of positions will follow Annex A outline (Compound Shift Schedule). Current number of MPs on duty will be determined by the total number of prisoners in the compound and directed by Company Commander and/or First Sergeant. MPs will not leave their post (i.e. designated working area) unless authorized to do so by NCOIC/OIC.

MPs on duty will follow uniform standards as stated in AR 670-1 or Company Commander (CO) /First Sergeant (1SG) directed. Recommendations made by area/local medical and preventive medicine personnel should be implemented as appropriate (i.e. wet bulb temperature). MPs or soldiers involved in daily prison operations, will wear full Desert Camouflage (DCU) or Battle Dress Uniform (BDU) at all times around prisoners. Further instructions can be found below under "Uniform for Military Police."

No weapons (shotgun, rifle or pistol) will be allowed within the compound. Weapons will be used on the outside perimeter of the main compound (i.e. outside five-strand concertina wire). Weapons carried by soldiers will be handed over to the company arms room prior to entry into the main compound.

Prisoners will be treated with dignity and respect at all times while housed in the prison facility. Mistreatment of a prisoner will be dealt with UCMJ action. if misconduct was committed by military personnel, and Geneva Convention Statues pertaining to treatment of Civilian Internees (CI). Violation of rules and regulations stated to prisoners can be found in Chapter 7 (Rules for Prisoners) of SOP.

#### Rules of Engagement (ROE):

MPs working with prisoners must always maintain a heightened state of readiness at all times. If an MP believes that his/her life is in danger or another human being's life is in danger it is the responsibility of the MP to do all means possible to save lives. MPs are reminded to use the following four words in thinking through courses of actions: **Shout**, **Show**, **Shove**, **Shoot**.

- Shout: In prisoner's native language three shouts of "Halt" will be directed to the prisoner. If no response to verbal commands then,
- Show: a show of weapon (MP Baton, Riot Baton, Pepper Spray, Shotgun, Rifle or Pistol) will be displayed to the prisoner. If no response to show then,
- Shove: a shove at the prisoner is authorized. However if an MP feels that contact with the prisoner may result in bodily harm then,

٠.

Shoot: a shot will be fired. This is the last step/course of action and constitutes deadly force. All means to stop the prisoner must be initiated before deadly force is used (i.e. shout, show, shove) on him/her. A prisoner always initiates the course of action needed, not the MP. Warning shots will not be used to stop a prisoner from escaping. Only if a belief that bodily harm or death will result if the prisoner escapes (i.e. prisoner grabs an MP's weapon, takes a hostage or is incarcerated due to a violent crime- for example murder).

#### Interactions with Prisoners:

As stated above, all prisoners will be treated with dignity and respect while housed in the prison facility. As human beings are social in nature interaction between military police officers and inmates will occur. Interactions with prisoners will occur when assigned to special duties and due to cultural/language differences between military police and prisoners. It is understood that MPs cannot be 100 percent unsociable and small talk will happen, yet remain professional at all times. All prisoners will be treated Firm. Concise, and Fair in ALL DEALINGS.

However promises of early release, special treatment for favors or unauthorized release of confidential information to prisoners is unauthorized. Talking to prisoners about other soldiers in any manner is unauthorized. Passing along or promising contraband in any capacity (i.e. cigarettes, money or extra food rations) is unauthorized. MP's will not compromise their integrity.

#### Uniform For Military Police:

- MPs Working In Towers- Kevlar Helmet, Flak Vest, Primary and Alternate Weapon. Basic Combat Load (Ammunition), Uniform will be worn at all times.
- 2. MPs Working The Yard- Pistol Belt with MP Baton and Holder. Handcuff. Handcuff Case, Flashlight. Whistle and Arabic Translation Card (Cargo Pocket), Uniform will be worn at all times.
- MPs Conducting Escort Outside Prison- Primary and Alternate Weapon, LBV/LCE, Protective Mask, Basic Combat Load (Ammunition), Kevlar Helmet, Flak Vest
- 4. MPs Working Special Details- To Be Determined by NCOIC of the detail.

, , -y ,

۰.

#### In-processing Prisoners:

Prisoners will be dropped off at the entry point (Sally point) prior to entry into the main compound. During in-processing no more that five prisoners will be processed at a time. QRF will respond to the yard to provide security, searching and escorting prisoners into the holding compound. Representatives for the company S-1 (Administrative) and S-4 (Supply) section will be located at the in-processing station to collect and sign for prisoners and their respective property. It will be the unit's responsibility to handle and store prisoner's property while housed in at the prison.

Representatives from the company's attached medical section will also be located at the entry point. Medical personnel will examine each prisoner and ensure that they are in fair health and have no major medical conditions prior to entering the compound. Prisoners with serious medical conditions identified by medical personal will be transported to the nearest medical facility for further evaluation.

Prisoners will be issued a bottle of water and will remain in their custody for the duration of their stay. Prisoners will also be issued blankets. Prisoners will be explained the rules of the compound and what will happen if these rules are violated.

Steps for in-processing are as follows:

- 1. Receive prisoners from transport vehicle.
- 2. Escort prisoners, five individuals at one time, into the in-processing tent.
- 3. In-processing tent:
  - A. Prisoners searched
  - B. Serial number and wrist id number will be checked with master roster
  - C. Property will be signed for by supply/administrative personnel and secured
  - D. Prisoners will be escorted to medical tent for examination
- 4. Medical tent:
  - A. Qualified medical personnel will examine the prisoners as stated above.
  - B. Water and blankets will be issued.

#### Out-processing Prisoners:

MPs will verify prisoners to be released by checking wrist id number and serial number with master release roster. Outgoing prisoners will then be separated from the remaining population. Prisoners will be escorted, no more than five at a time, to the out-processing tent. Prisoners will verify and sign for their property. Prisoners will be provided a humanitarian meal and escorted to the departure vehicle.

Steps for out-processing are as follows:

- 1. Verify prisoners wrist id number, serial number, and name. (Also a photo if movement cards are incorperated at a later date.
- 2. Separate outgoing prisoners from those remaining.
- 3. Escort five prisoners to the out-processing tent at one time.
- 4. Confirm wrist id. serial number, and roster number match prior to release.
- 5. Issue a humanitarian meal.
- 6. Place in transport vehicle for release.
- 7. Explain in Arabic rules for safe transportation ie. No Jumping Out of Vehicle.

8. In Arabic express/wish them a better life to include Law and Order when departing.

л.

ı.

•

#### Prisoner's Property/Money:

During in-processing supply and administration personnel will inventory prisoner property item by item. (Chain of Custody Form) Prisoners will sign DD Form 2745 to record inventory of their property. All property will be locked/stored in the arms room/storage room until prisoner's release. Upon release all items will be handed back to prisoner and verified, at which point he/she will sign for receipt of said property. All forms will be kept by administrative personnel for a period of 1 year.

#### Tower Operations:

MPs will man the towers 24 hours a day / 7 days a week. The purpose of the tower guards are for a show of force, provide early warning, protection of interior compound MPs, and to deter escape.

ROE for external contact outside the Prison compound will follow V Core guidance and include the following:

You are AUTHORIZED to take appropriate action up to and including DEADLY FORCE to:

- 1) Defend yourself and others including detainees from death or serious harm.
- 2) To stop serious crimes including murder, armed robbery, rape and aggravated assault.
- 3) To protect designated Iraqi property including:
  - a) Financial Institutions
  - b) Institutions containing vital government records
  - c) WMD or suspected WMD sites
  - d) Oil Fields
  - e) Public Utilities
  - f) Commercial fuel service
  - g) Hospitals and public health facilities
  - h) Water supplies.

Assess What You See! If you suspect that contact against the facility or towers has occurred report your suspicions immediately. If it's significant or impacts our mission, a SALUTE/SITREP will be given after the initial Contact report. You do not need permission to defend yourselves, or others against death or serious bodily harm, however, the use of deadly force will be utilized only when necessary, in accordance with V core guidnace and upon positive identification of a legitamate threat, legitamate target and no risk to friendly or innocent personnel.

A detailed SITREP will follow any type of firing incident.

The Bottem Line: Protect yourself, protect your fellow soldiers, and protect innocent civilians. Assess, Assess, Assess, think before you shoot!

Uniform. Tower Specific- Enforced at all times!

Worn or on you:

Kevlar Flak Vest M9 M16/SAW/M203 Whistle and Arabic book Carried or grounded with you:

LBE/LCE Full Battle Load Ammo Mask DCU top

MPs at the guard towers will:

- 1. Arrive at their respected tower 10 minutes before the start of shift (day or night).
- 2. Conduct challenge and password to the oncoming and off going shift.

٢,

- 3. Brief oncoming shift of events that occurred during previous shift.
- 4. Oncoming shift will conduct a quick inventory of equipment. (Night Vision Goggles. Batteries. Red Star Cluster, Green Star Cluster, White Star Cluster, Basic Load. Binoculars)
- 5. Always maintain one MP with full attention inside the compound and another MP with full attention outside the jail wall. Note: MPs in towers not directly over-watching the Detainee yard or ECP 2, will both face outward with full attention outside the compound wall at all times.
- 6. Both MPs will have weapons at the ready when in the tower. Towers 5 and 6 will always have shotguns at the ready as a show of force.
- 6.5 SAWs will always be located at the following:

#### ECP

#### TOWERs 1.2,& 3

- 7. Communications check with TOC will be conducted every hour on the hour. Radio communications will be made via Motorola Hand Held Radio. TA-312 or SINGARS (If available).
- 8. MPs will not leave their post until properly releaved.
- 9. Tower MPs must be vigilant on the duress sign from inside the yard (removing head gear inside the yard).
- 10. Towers should report all vehicle(s) or civilian(s) outside the compound to TOC. Military vehicles approaching the compound and identified by a tower must be reported to TOC.
- 11. Passes will be issued under Tower 2 to all contracted personnel who arrive for work detail in in the prison.
- 12. Local population will be kept at a minimum of 75ft from the Prison compound wall at All Times. Only exceptions will be POCs who are conducting business with MPs. These will be limited to (2) two locals at a time. This rule will be enforced even if it requires repeated warnings from tower and ECP personnel.

Note: 2 whistle blows = EMERGENCY ie. Being fired upon, prisoner escaping, life in danger, danger to compound personnel etc.

۰.

#### Prisoner Compound (Yard) Operations:

MP personnel will be assigned their perspective duty position by the NCOIC of the yard at guard mount. MP personnel working the yard can be rotated every 2-4 hours as time and weather permit.

Those assigned to guard the ECP compound gate will determine who enters and leaves the compound, to include MP personnel and prisoners. The compound gate is to remain closed at all times except when entering or exiting the compound.

MPs escorting prisoners in work detail will have a visual of the detainee/s at all times.

When issuing out food, blankets ect., detainees will line up single file on one half of the compound. After food/blankets, ect. have been issued detainees will gather on the opposite side of the compound until all detainees have received issued items. This avoids a detainee from getting more than one item.

A head count will be conducted a minimum of two times a day (0600 and 1700 hours). However shift NCOIC/ OIC may initiate a head count at any time.

When an MP feels that a possible confrontation or incident is about to occur and the MP is with prisoners the MP will remove his/her cap as a sign of duress and initiate steps provided in the ROE.

Incident reports/daily staff log (DA Form 1594) will be completed daily and turned in at the end of each 12 hour shift. Yard NCOIC will log work details, in-processed and out-processed prisoners and visitors to compound.

All questions on yard operations will be directed at the NCOIC/OIC.

Note: NO Prisoners are allowed to remain standing at any enclosure door at any time unless being addressed by an MP

#### Special Work Details:

Special work is defined as details that can be done by prisoners for the prison compound or for prisoners. Details cannot be dangerous to the prisoner. For example, removal of unexploded ordinance or using prisoners as human shields during riot or outside attack on compound.

Special work details that can be done by prisoners are:

э.

- 1. Filling of water jugs/bottles for prisoners.
- 2. Construction of more prison compounds using manual labor.
- 3. Placing and building of tents on the compound.
- 4. Area beautification of the compound. For example; painting, trash detail or removal of weeds.
- 5. Interpreter duties for native speakers that can also speak English.

÷.,

#### Prisoner Sick Call Procedures:

Sick call will be done by medical personnel attached to the company. Sick call hours will be from 0800 hours until completion. Emergency sick call will be handled 24 hours a day/ 7 days a week.

Prisoners identified as having a medical condition during in-processing will be seen by medical personnel during sick call. Examples of medical conditions identified at in-processing may be asthma, high blood pressure, heart conditions, etc..

Prisoners that have a recent medical condition will be seen by medical personnel during sick call. Examples of recent medical issues that arise may be bug bites, cuts, colds, etc. Medical personnel on duty will treat prisoners as medically appropriate.

-

Medical evacuations will be handled by medical personnel on duty. All medical evacuations will be communicated to Headquarters TOC and then to Battalion Headquarters for further coordination.

#### Rules For Prisoners:

- 1. All prisoners will be present during headcount. No one is allowed to stay in the tents during headcount.
- 2. Prisoner vs. Prisoner fighting is unauthorized.
- 3. No prisoner will have a weapon, in any capacity, in their possession.
- 4. Verbal abuse towards the guard force will not be tolerated.
- 5. Throwing of any items (rocks, tent stakes, spitting, etc.) is not authorized.
- 6. Leaning up on the concertina wire is not authorized.
- 7. Prisoners will not be allowed to receive items without approval from OIC/NCOIC. Items include food, clothing, shoe's, etc. from outside the gate
- 8. Smoking/Smokeless Tobacco/Matches are not allowed in the compound.
- 9. Talking to family members through the wall or wire is not authorized.

#### Rule Violation:

Violation of the above rules will be dealt with by OIC/NCOIC and may result in referral of additional criminal charges to the Company Commander. Assaults on prisoner by another prisoner will result in an extension to the prisoners stay, per Judge Adjutant Generals (JAG) office guidance. Assault on guard force by prisoner will result in immediate removal from compound and placed into a separation cell. The JAG office will be contacted immediately.

All incidents will be reported and written up as an incident report per OIC/NCOIC guidance.

#### DEPARTMENT OF THE ARMY 18TH MILITARY POLICE BRIGADE Baghdad, Iraq APO AE 09302

AETV-MP-400

13 June 2003

, S-1, 400th MP BN.

MEMORANDUM FOR CPT Robert B. Wyks,

SUBJECT: Appointment as an AR 15-6 Investigating Officer

1. Reference: AR 15-6, Procedure for Investigating Officers and Boards of Officers, 11 May 88, with Change 1, 30 Oct 96.

2. You are hereby appointed to conduct an investigation concerning the escape attempts and shootings at Abu Ghurayb on 13 Jun 03. You may incorporate the results of any Commanders Inquiry that has been begun on these escapes.

3. You are to investigate all details concerning these escapes, attempted escapes, and the responses by the Military Police that were on duty at those times. You are directed to specifically address the following questions:

- a. How did the prisoners escape?
- b. What steps could have been taken to prevent these escapes?
- c. What was the response of the Military Police on duty?
- d. Was the response of the Military Police on duty reasonable, or was excessive force used?
- e. Is there an SOP in place to deal with this situation, and if so, was it followed?
- f. Is there additional training that needs to be implemented to cover these situations?
- g. What actions, if any, were taken by the QRF?

4. During the course of your investigation, you will record all interviews on DA Form 2823 (Sworn Statement). If, during any interview, you suspect a violation of the UCMJ by the person you are interviewing, you are required to stop the interview, and advise the interviewee of their Article 31(b) rights, using a DA Form 3881 (Right Warning Waiver Certificate). You may continue to interview that person if they agree to make further statements. If they do not, terminate the interview and contact your legal advisor. If you have any questions about whether or not the person made a knowing and valid waiver, terminate the interview and contact your legal advisor. You will advise all persons being interviewed that their statements can be discovered

AETV-MP-400 SUBJECT: Appointment as an AR 15-6 Investigating Officer

under the Freedom of Information Act, and you will further advise them that any actions taken in reprisal against them for making a statement should be reported immediately to their Commander, the Office of the Inspector General, or to the Office of the Staff Judge Advocate. Per Article 136.b.(4) and 136.b.(6) of the UCMJ, you are authorized, as an Investigating Officer, to swear people in.

5. You are authorized to investigate any issue(s) that arise during your investigation that are related to the primary purpose of your investigation. CPT Michael Banks, 18th MP BDE Judge Advocate, will serve as your initial legal advisor. Should your investigation extend past the change in task organization that will have the 400th MP BN falling under the 800th MP BDE, then the 800th MP BDE will provide you with a legal advisor.

6. This is your primary duty until you complete it, and you will submit a chronology of your actions along with your completed report. The report of investigation will be submitted to the appointing authority NLT 23 Jun 03. Requests for extension must be made in writing to the undersigned.

7. The POC for this memorandum is the undersigned.

DALE A. BURTYK LTC. MP

Commanding

13 June 2003

#### MEMORANDUM FOR COMMANDER, 400<sup>th</sup> Military Police Battalion

SUBJECT: Use of Deadly Force, Abu Guhrayb Detainment Facility

- 1. On, 12 June 2004, at approximately 1800 hours, the detainees became agitated and began demanding answers regarding their capture and the amount of time they would be held in custody. They were upset and declared that they were being housed improperly and lacked basic needs such as showers, shampoo, blankets and toilets. Several of the detainees threw rocks and tent poles out of the enclosure at the guards and one guard was struck on the hand. At that time, the Company First Sergeant, Daryl Keithley, and myself responded to the yard and addressed the detainees through one of the prisoner interpreters. They were advised that many of the new detainees had release dates and that the Camp Commander would review other cases and provide us information when it was available. The detainees were all advised that throwing rocks and tent poles at the guards would constitute deadly force and that they could and would be shot if that behavior occurred again. The situation was deescalated, however, due to a lack of additional compounds, the individuals suspected of throwing rocks and tent poles were not pulled out and segregated. A sitrep was sent to battalion with a request to charge the individuals and have them sent to Camp Cropper.
- 2. On 13 June 2003, at approximately 1400 hours, a disturbance was again reported in the yard and involved an attempted escape by detainee #8968. The detainee attempted to go through the wire utilizing a cardboard box, however, was immediately apprehended as he exited the wire. At this time a count was initiated, however, detainees in both compounds refused to stand to be counted. The QRF was dispatched, and ultimately the count proceeded without incident. Shortly after the count the QRF was being called again and as they were responded multiple gunshots were heard in the yard.
- 3. Upon responding into the yard it was discovered that multiple detainees with multiple rocks and tent poles had targeted the military police working the enclosure compounds and were throwing the rocks and tent poles at them. As they attempted to flee military police in the tower feared for the lives of the enclosure guards. Simultaneously, three military police from three different guard towers, followed the rules of engagement and fired upon identified detainees who were engaging in the use of deadly force against U.S. personnel. Two military police shot with 12 gauge shotguns and one fired approximately 4 5.56mm rounds from his M-16. At the end of the engagement 7 Iraqi detainees were wounded, one was killed and one U.S. soldier from the 400<sup>th</sup> Military Police Battalion was injured from being hit by a rock.
- 4. All wounded were taken from the enclosure area and provided first aid by medics from the 400<sup>th</sup> MP Battalion as well as combat lifesavers from the 72<sup>nd</sup> Military Police Company. Medivac was requested and the 7 wounded detainees were evacuated. The body and personnel affects of the KIA were release to Iraqi authorities.

On 13 Jun 2003, at approx. 1557 hrs. we initiated the release of 15 prisoners. After the release had been completed you could again tell that the remaining detainees were very agitated and were just waiting for a excuse. I stayed in the yard for a few minutes, then returned back into the building. On 13 Jun 2003, at approx. 1615 hrs. I heard the QRF radio go off requesting that they respond to the yard. Less than a minute later 1 could hear what sounded like gun shots going off in the compound. At that time CPT Armstrong and myself took off running towards the yard. As I got in vision of the yard, I could see three (3) of the 400th personnel hankered down behind the generater in the yard. I yelled at them to go ahead and exit the yard. CPT Armstrong and myself along with some members of the QRF continued into the yard. There were still numerous detainees standing in front of the tents in both compounds yelling and screaming at us. I verbally advised and with hand motions advised the subjects to get down and obtaining a shotgun and more QRF personnel arrived we entered Compound Alpha. We observed that one (1) detainee had been shot in the arm. At that time QRF extracted that detainee out. While this was being conducted one (1) detainee had been shot in the arm. At that time QRF extracted that detainee out. While this was being conducted one (1) detainee that subject in custody. Subject resisted, but was removed from the compound and moved to Compound C without further incident. After that the QRF and myself netred Compound B where most of the injuries were. It should be noted that all of the injured detainees had been drug from the yard to under the tentage for cover. The QRF team removed 7 injured detainees out of the tentage area into the center ill-way. At that time MP personnel began to administer immediate first-aid and transport the prisoners to the first aid station. It should be noted that personnel began to administer immediate first-aid and transport the prisoners to the first aid station. It should be

7. Summary of Incident:

a. Synopsis: Eight prisoners began to riot after witnessing 14 inmates being released. They attempted to overtake the guards utilizing rocks and tent poles. One MP received minor injuries from a rock. Guards opened fire killing one and wounding seven prisoners. The seven were provided Air MEDEVAC to LSA DOGWOOD, along with an MP providing security on the prisoners. IPF forces were notified and a civilian ambulance was escorted back to the prison to retrieve the body of the KIA.

b. Events Preceding the Incident: On 12 Jun 03, at 1800 hours, the detainces became agitated and began demanding answers regarding their capture and the amount of time they would be held in custody. They were upset and declared that they were being

4

housed improperly and lacked basic needs such as showers. shampoo, blankets. and toilets. Several of the detainees threw rocks and tent poles out of the enclosure at the guards and one guard was struck in the hand. At that time, the Company First Sergeant. Daryl Keithley, and the Commander. Troy Armstrong, responded to the yard and addressed the detainees through one of the prisoner interpreters. They were advised that many of the new detainees had release dates and that the Camp Commander would review other cases and provide information when available. The detainees were all advised that throwing rocks and tent poles at the guards would constitute deadly force and that they could and would be shot if that behavior occurred again. A SITREP was sent to battalion with a request to charge the individuals and have them sent to Camp Cropper.

c. On 13 Jun 2003, at approximately 1400 hours, a disturbance was again reported in the vard and involved an attempted escape by detainee #8968. The detainee attempted to go through the wire utilizing a cardboard box, however, was immediately apprehended as he exited the wire. At this time a count was initiated, however, detainees in both compounds refused to stand to be counted. The QRF was dispatched, and the count proceeded without incident. Shortly after the count, the QRF was called again to respond to multiple gunshots occurring in the yard. Multiple detainees with rocks and tent poles had targeted the MPs working the enclosure compounds. As the enclosure ouards attempted to flee the objects, the tower guards feared that the enclosure guards were in danger. Three Tower Guards simultaneously followed the ROE, and fired upon the detainees who were engaging in the use of deadly force against U.S. personnel. Two of the towers fired 12-gauge shotguns expending eight rounds. The third guard fired four M-16 rounds. Seven detainees were wounded and one killed as a result of the incident. One U.S. soldier was injured by a rock. All wounded were taken from the enclosure area and provided first aid by medics from the 400<sup>th</sup> MP Bn and combat lifesavers from the 72d MP Co. MEDEVAC was requested and the seven wounded were evacuated under one MP guard. The body and personal belongings of the deceased prisoner were released to Iraqi authorities.

8. Remarks: All rounds were confiscated, the crime scene was photographed, and tower views were photographed. Personal property of the KIA was provided to Iraqi authorities who retrieved the body at 1930. The riot was believed to have been caused by a lack of information about their dispositions, dates of release, and lack of basic living necessities.

9. Publicity: Unknown

1

10. Commander Reporting: Dale A. Burtyk, LTC (P), 400<sup>th</sup> MP Battalion

11. Point of Contact:

a. Prison Company Commander, CPT Troy E. Armstrong, 72d MP CO

b. Reporting Officer, CPT Robert Snyder, Battalion Assistant S3

12. Downgrading Instruction: FOUO markings may be removed after 13 July 2003

13. Other Requested Information:

3

Ļ

- a. What gate or guards were rushed? Three Enclosure Guards.
- b. Describe the location between the enclosure guard and the tower guards. The tower guards formed a triangular position around the enclosure guard and prisoners. The guards fired their weapons from the towers.
- c. How many guards used their weapons? Three guards; Total rounds expended: four M-16 rounds from the Yard Tower; five 12-guage shotgun rounds from Tower 6; and three shotgun rounds from Tower 5.
